## WELCOME TO PALMETTO ORTHOPAEDICS OF CHARLESTON

Our specialists at Palmetto Orthopaedics of Charleston are dedicated to relieving your musculoskeletal pain and restoring mobility and quality of life.

### WHEN TO SEE A SPECIALIST

Many times, conservative treatments such as oral medications, injections and physical therapy can treat and alleviate pain. In some cases, however, the severity of the pain or disability will indicate the need for surgery. In these instances, it is best to see a specialist in that field.

#### **Our specialists have extensive experience in the following areas of musculoskeletal treatment:**

- Sports Medicine
- Fracture care – pediatric and adult
- Hip and knee total joint replacement
- Shoulder replacement and reconstruction
- Arthroscopic surgery
- Cartilage restoration
- Minimally invasive surgical techniques used for rotator cuff, shoulder instability repair and total joint replacement

### LOCATIONS

### APPOINTMENTS AND REGISTRATION

To make an appointment, call (843) 884-0302 or (843) 763-2857 between the hours of 8:30 a.m. and 5 p.m., Monday through Friday.

Please bring insurance and medical cards along with a photo ID and any special forms required by your insurance carrier, as well as any previous X-rays or imaging studies (MRIs) to your initial appointment. Please also bring a list of all current medications and their dosage.

### TOTAL HIP, KNEE OR SHOULDER JOINT REPLACEMENT

The surgeons of Palmetto Orthopaedics perform hundreds of total joint replacement surgeries a year. Mini-incision, partial replacements, alternative bearing surfaces and all of the latest advancements in joint replacement surgery are available and chosen based on individual patient needs.

### SPORTS MEDICINE

Palmetto Orthopaedics offers high-quality care for patients suffering from sports-related injuries. We are experts in the treatment of common overuse and traumatic injuries. As part of our total approach to patient care, we offer personalized treatments including physical therapy and training recommendations. The most advanced techniques in arthroscopic surgery are also available. Our goal is to get patients with sports injuries back in the game as quickly as possible.

### PERSONAL CARE

Our surgeons are dedicated to providing the highest level of total patient care. Our patients receive hands-on attention from diagnosis through recovery – making it a comfortable experience for both the patient and his or her family.
